

CortexDecoder®

Enterprise Barcode Reading Software

Compatible with iOS®, Android™, Windows® and Linux®.

Designed to be flexible and reliable, CortexDecoder® is the most innovative software-based barcode scanning system, providing unparalleled performance on virtually any platform and operating system. With incredibly fast read times, the ability to read more barcode types, and the versatility to read damaged barcodes, CortexDecoder® easily outperforms the competition.

Extremely fast decoding of 1D, 2D, Postal, and direct part mark barcodes.

Easily decodes poor quality, damaged and even curved barcodes.

Integrates with any device with any embedded camera.

Compatible with any operating system, including iOS, Android, Windows and Linux.

Versatility for Every Industry

Be it a hospital reading poorly printed barcodes off medication packets, or a manufacturing facility capturing part information from an extremely high density barcode, CortexDecoder® is built to handle whatever is thrown at it.

Best-in-Class Speed and Reliability

CortexDecoder® can decode more barcode symbologies than competitors.

up to **6X FASTER** decoding times for all barcodes, including damaged and distorted barcodes.

Performance Characteristics

- Reads barcodes reliably from mobile devices with 5% brightness
- Full, 360°, omnidirectional reading of barcodes
- Excels at reading barcodes on curved surfaces
- Reliably reads QR Code and Data Matrix barcodes with damaged or missing finder patterns
